

**SUMMARY & EXCERPTS FROM PROPHETIC WORDS
FRAGMENTATION TO FRUITFULNESS CONFERENCE
LSU CAMPUS, BATON ROUGE
JULY 23-24, 2010**

Friday Evening, July 23

Glenda Fleming:

The Lord Almighty says He has a word for this time, and this state, and this place. He said just as He moved through the pieces when He put Abraham to sleep and He moved through as a fiery flame and a torch through the pieces. The Lord says there has been fragmentation not only in this state but in this nation. And God said because of your faithfulness to come and to stand before Him and to plead before Him, that the God of the torch, the God of the fire, is passing through the state of Louisiana this weekend. And there will be no more fragmentation; there will be no more pieces because God said, I have been in covenant with you before, but I cut a new covenant with the state of Louisiana this weekend. Your covenant is fruitfulness. (Glenda said the word God gave her over Louisiana when she came was "Lazarus come forth".)

Chuck Pierce:

*Chuck took authority over the scattering power of the Abaddon spirit (angel of bottomless pit) that has ruled in South Louisiana a hundred miles out into the Gulf. Declared it would not have power to control the resources of this land any longer. Set a Bloodline and decreed that no power could infiltrate through the Bloodline of the Lord Jesus Christ that was being set in the heavens through the worship.

*Declared that worship was removing the band that is linked with bloodless religions that have held this region captive. Prayed for the removal of the band that is linked with secret societies that hold the Blood from having its work in this region.

*Joy is coming to this state that has seen the most destruction over the last five years. Where much pain occurs, much joy comes. Even though we have had two great defeats, that is not going to stop what God is ready to do in this region.

*Here in Louisiana there is a religious force as well as a force of mammon linked with corruption that is very strong.

*And so what you have seen for 100 days is nothing but the very bowels of the earth giving up and coming up off shore of this land. That tells us there is darkness that would love to invade our land in the next 10 years. It also tells us that Louisiana, Mississippi, Alabama, Florida, and Texas are keys over how darkness has right to come into this land.

*And we're moving into a new uprightness where we can stand, and when we don't feel like standing (this is going to be a picture of those in Louisiana) they're going to lead our nation, and when they don't feel like standing, they're going to stand. And there's going to start coming such warfare over the political scene of this state because it is rising up to take a stand in this nation. And because of that all us other states who have come in here, we're going to have to surround them because this state will take a stand against corruption throughout this entire nation.

*Now hear what I am saying to you. We are in a place where the Spirit of God is about to take the reins of this state. That's the difference in coming this time and any other time. This is a sovereign moment where things will begin to change. Things will begin to be rearranged, and it's almost like Louisiana is in the middle and how it snaps into alignment is how everything on both sides will snap into alignment. And everything up the Mississippi will snap into alignment.

*Now hear me carefully. We are here tonight to ask for a new type of wind to be brought into the state—not the same—see if you don't deal with your trauma you're going to think it will be like it was with Katrina. It's not the same. But tonight we must ask now for the wind of heaven to come into the earth realm and God to prepare people's hearts because this wind will not be purifying; it will be a wind that scatters the enemy and puts us back together...This wind will be known as one that scattered the enemies as the enemy had planned destruction. This wind will be a recurring wind for the next 9 years in this state. It will be very key and it will be a wind that we rejoice over. For it says to us spiritually that layer after layer will be removed in this state until Holy Spirit takes this state over. **This state is going to be taken over by Holy Spirit.** I have not said that to another state. This state is going to be taken over by Holy Spirit...It's a triumphant wind that scatters the enemy...You don't even have to ask it to come because the Lord says from heaven when you agree with me I will start sending it in. And what it's going to do is it's going to break the scattering that has held the people scattered in this region...What goes on in the next 9 years in this state will redirect this entire nation. Now Father we say right now, You are beginning to move here in a new way. We give you liberty. We call forth the troops, three generations that are going to move into this triumphant move that will be coming across Louisiana. Lord we thank You for the young, the old, and the older that will align and will begin to prophesy in meetings that causes the wind to come.

*What makes Louisiana so unique is it's parish run and it's the only state that has a different form of government other than Nebraska who has a unilateral government. But that's still not the same as a parish driven state. Now one of two things singles the state we're in and the territory we're in out in this nation. It means that the government of God could have access in this state in a way it doesn't have access in any other state because of its difference. It means

that this state could resist its role in bringing this nation into a whole new model, and so it becomes very, very important for how we move.

*What God showed me when I was in Shreveport in June—it was like a fig leaf, and He picked it up. It was over about West Monroe, and He picked this fig leaf up and He began to wave it so in the next 5 months there will be a glory realm that develops right here in Louisiana. Now that contends with that darkness in southern Louisiana or else this darkness creeps up into the entire nation if we didn't cry out for the glory to come and begin to be fanned in this state. The next thing He showed me was the sound that began to develop out of Baton Rouge. Not out of New Orleans because New Orleans has developed a sound that it is rooted in. The Lord said there is a sound that will start coming out of this part of Louisiana. And it actually infiltrates over Mississippi. It actually comes and it's linked into the movement of the waters and the people that are through this area. There is a new song of deliverance that will start coming out of this region. When that new song starts developing out of this region, the glory will be empowered to overtake the darkness. That means beginning in September through May you need to start finding your places to worship all through here. You need to have worship gatherings where you just have nights of worship. And you go and you worship and you move and you move prophetically and when hell tries to stop you from worshiping, you just worship. You don't have to have instruments to worship. We're not talking about music; we're talking about worship. Now whatever that road is all across there (looking at LA prophetic map), it's going to have to be moving with sound. (Interstate 10) It doesn't mean there's just one church. It means it's a gathering dimension in that area that is filled with fire and not linked into religious structure. And it will form in this next year...I'm talking about God's people moving in sound because it's going to create a massive, massive move of God. Now, I saw it coming down and into the bottom of the state.

*The move of God is going to come, it's going to intensify in the middle (of the state); the sound is going to develop here, but the move will come from the north and then it will break this darkness that's down in the bottom (of the state)...If there was one state that you had to drive darkness out of or darkness would overtake, it was this one. The Lord says I already have a strategy to do that...For the Lord says I will gird this state with My glory. I will come across the middle and gird up the waist of this state with My glory. I will cause the north to start hearing Me first but I will gird the waist with My glory and I will cause the foot that is not walking in peace to rise up and dip its foot in peace saith the Lord. I say to you I have brought you here tonight for I am determined for death not to increase in this land saith the Lord. I say I have brought you here tonight because there is a triumphant people who will arise and who will cause My glory to connect east and west in America...I say the whole nation will gather into this state and say we are here to receive the sound and the glory that this state carries. I say five months and grace will form and nine months and you will birth the sound saith the Lord. So I

say to you I have gathered you tonight and from this place a wind will scatter the enemy and scatter the enemy and scatter the enemy and scatter the enemy and scatter the enemy and scatter the enemy and scatter the enemy again and you will see My glory reign!

Saturday Morning, July 24

*During worship when a new sound of celebration was being released along with group dance, John Dickson, worship leader, had a word about the Lord plowing up the soil. The Lord said that through the worship celebration, he was uncovering mysteries that had been hidden. He was uncovering seeds that He had planted generations ago. The ground that had been fallow, He was bringing His water into it and bringing forth seeds that had been hidden for this time and this moment.

LeAnn Squier:

The Lord says there is a deep covenant root with Israel here; its deep, its deep, its deep. The Lord says I'm gonna uncover some things in your history that you don't even realize. The Lord says you're going to be those known for going from trauma to celebration, trauma to celebration, trauma to celebration.

Barbara Wentroble:

And I hear the Spirit of the Lord saying that in the same way the prophet went to the house of Jesse (he was looking for the son that would be anointed for the next season) and I heard the Spirit of the Lord say that even this state, even this region has felt that you are the most unlikely one. But God said He sees the way man does not see and the Lord said no longer let your identity be the least likely one. For I say I have found a people even as David whose hearts are turned toward Me and no I don't look at outward appearance. I don't look at natural prosperity. I don't look at natural status, but the Spirit of the Lord says for I look at the heart and I say I am anointing this state and this region for the next season says the Lord. Watch me says God as I bring you to the forefront in this nation. Watch Me says the Lord as I come to destroy strongholds of poverty and lack. The Lord says watch me as I shift this state into a new place. I say as I shift this state into a new place, I say I am coming to put a new identity upon you. I am coming to put a new anointing upon you. I say no longer will you be the least likely, but I say you will be My anointed one for this new season.

Chuck Pierce:

*Louisiana should be prospering more than any other place in our nation because of the Biblical principle that God builds out of total destruction.

*We have to go along the southern border of Louisiana and worship because the only way you can remove an occult covering is through worship. When you see a strong occult covering, you

will see that a sound has come forth that embraces the occult covering. So you have to go higher and worship.

*Now, let me prophesy about what I see here in Baton Rouge. The Lord says, as the song of deliverance comes...I see an entire development of a project of sound. Like a DVD; like you see with *The Darkness Is Turning or Seeing Beyond*...I see beginning in September through the beginning of January new sound coming forth. This is the perfect region to evangelize and when I say evangelize I don't mean the four spiritual laws. I mean go to places. Worship as God brings sound. I see that this season LSU will again become a prototype of what God is doing and you'll see how you're breaking through in deliverance based upon the way this particular school is being presented nationally to us. In other words, how the sound is coming forth is how your victory is developed and so it becomes very important that you get momentum.

*Remember there's a big move of glory going to fan through the middle of the state of Louisiana and go toward the west...and it's going to come because the northern part of Louisiana gets planted and invites the Spirit of God to come in. But the middle portion there is going to have the glory visitation. So when you see that happening run to it...You're not jealous over the middle getting it. You just go up there and you take all the pots you can take. You fill it up and then you bring it back and pour it out. It doesn't matter if you're to the east. Go over there get it and go pour it out and get it started in your place...The glory of God's going to invade the old... is going to go into the swamp and pick up a sound and then it's going to move into the cities. You're going to see New Orleans have a moment of revolution.

*(In reference to becoming stabilized) New Orleans is going to be a place that becomes the perimeters of it and the people of God there are going to become stable. Louisiana is going to be a place where you can find your footing in the Spirit of God. It's going to become a supernatural jewel in God's hands.

*The life of David—his anointing by Samuel, confrontation with Goliath, keeping our hearts right over those who aren't moving forward (like David did with Saul), and specifically 1 Chron. 12 with the development of his army (The Triumphant Reserve—not those who have it all together but those who don't have anything to lose) and the three tribes working together (Judah, Issachar, Zebulun) is a prophetic pattern for Louisiana moving forward. Samuel goes to the house of Jesse and he waits until he sees the right one and then he anoints that one—the last one. The one you would least expect, just like Louisiana. Who would think Louisiana? Who would think David?

*When David lost everything at Ziklag (1 Sam. 30), he encouraged himself in the Lord and He told him to “pursue” and “recover all.” This is a word to Louisiana. This is the time we have to make this shift and because Louisiana is likened to David that means that there is a worship anointing here, a leadership anointing here, and there's an intercessory anointing here.

*In regard to David taking the Jebusite city that became Zion—in Louisiana we must take out what never got dethroned. “There are some things that never got dealt with that I’m ready to deal with in this coming year. And I am ready to move.”

*Louisiana you’re on the verge of a three year to five year victorious run. However, watch how your enemy regroups every time you have a victory. In the midst of this victorious run, you must back up every time you have a victory, like we are having here. Regroup. Because the enemy will say, “you can’t move forward.” The enemy will say, “You can’t exercise the Blood of Covenant here.” That means next time you start off, exercise the Blood Covenant. (We were unable to take communion in the Cox Communication Bldg. on the LSU Campus—against regulations to have anything in the building other than water.)

*David had been anointed in three phases. Now the stronghold had to be taken. The stronghold is linked with a city. It’s linked with a place. Strongholds are not just some spiritual forces out there floating around. It is linked into a place and until that place breaks through with the glory of God coming into it, you haven’t won. David took the Philistine city of Metheg Ammah, a coastal city meaning the mother, the bridle city, the one where the reins of the enemy are being controlled. They did not win over the territory until he was in control of it and it was shifting into the glory of God.

*(Looking at the state map one more time) Metheg Ammah is where the controlling factor of government influences; the federal courts operate. It’s where things are watching and waiting to take control again. You’ve got a freedom outpost there. **But God says, “Until Metheg Ammah is taken you haven’t won your victory,”**...And you have to let God define what that is. It’s not just the largest city. It’s not just the capital city. It is the city where evil controls the guiding force of how the people operate. I want to say to you why Louisiana has a shot at making a shift. Out of Baton Rouge, God’s raising up righteousness and that righteousness will clean out corruption that has pulled the strings of trade coming in and out of this land.

*God says to you, “You have opportunity now in these next three to five years to gain complete control of this region.” Who would have thought God would anoint this state as David and say, “Rise up, rise up, press in, press, for I’m going to wash clean.” Now here’s my word over you, “I’m gonna wash clean and use you to wash.”

* And God says, “I am raising up a triumphant people in this state that are going to begin to worship; going to begin to release My sound, until that which is controlling the trade that divides this nation is under My right authority,” saith the Lord. The Lord says, “You watch My glory begin to come. You watch My glory begin to wave. You watch from the north, how revelation comes down. You watch in the middle how I gird up with my glory and you watch a movement come from the north, through middle; stop in the capital city; gain more strength

and move in andYou watch a place that I have ordained and I have allowed to become a mother, bridle city. You watch the reins change hands over these next five years," saith the Lord.

Saturday Morning, Second Session, July 24

Diane Buker:

*We've got to be an assembled group, no fragmentation. Remember you are a battle axe in the hand of the Lord and with you He breaks into pieces kingdoms and nations of darkness, and with you He destroys the work of the horse and the rider and the chariot and the rider, so let's get to attention! Father, we rejoice that You are the stability of our time, that it is through You that we do valiantly. I've come from Florida to bless and to be blessed, Louisiana. The Lord prophesied to Mississippi, Louisiana, and Florida many years ago that there was a war mantle on our three states...I have a word of the Lord for this gathering and for this nation and for Women's Glow and for the LA Prayer Network, for every other kingdom ministry that God has set in place across this state. Jeremiah 47: 6&7 I believe says, Lord put your sword back in your scabbard to take a rest. And the Lord said how can I rest my sword when I have already appointed it somewhere? The Lord has appointed His sword in LA to certain arenas in this season. Now Jeremiah 48...I tell you I am about to fall over...Jeremiah 48:10 says cursed is the man who serves the Lord deceitfully and cursed is the man who withholds his sword from blood. And the Lord showed me a picture this morning of Women's Aglow and the LA Prayer Network. There is one sword; there are two entities. But there was one sword and the Lord says LA has aligned her sword with My sword. Is that a true word church? (Diane falls to the floor.)

Barbara Wentroble:

I also heard the Spirit of the Lord say it's not two swords; it is one sword. And God said what I am doing in this region and in this state I heard the Lord say it's not two wars it is one war, and God is taking two different groups that have warred independently in days past and God said in this season I am bringing them together for it is one sword, it is one war, it is one victory, it is one Lord. God said I am breaking the spirit of competition and the division that has been in this state. I am birthing a new move of my Spirit where God is going to bring together and there is going to be such a model that's going to be released in this state that will break the power. For even the spirit of division that has been in this nation, God said I'm causing LA to rise up and to model unity. For it is not two swords, it is one sword. It is the sword of the Lord.

* I want to say to you this morning that this is the state that may have seemed the unlikely ones, but you have the power, the anointing, the authority. You have the prophetic word that's been released over you that you have what it takes to shift this nation.

* I want to declare over you this morning, over LA, this is a time that there is a seed of destiny. You thought your destiny was to be at the end rather than at the beginning. You thought your

destiny was to be a state of poverty. You thought that your destiny was to be the least likely. You thought your destiny was to be one sort of left behind in the areas where other states were moving forward. But today a seed of destiny was put on the inside of you. God changed your destiny. He put something on the inside of you today that he wants to water, that he wants to cause to grow so that this state can come into the fullness of what God has for it.

*All ministry is built on the heart of a servant. Even through all that has happened in this state through Katrina, all of that to see how there were those in this state willing to reach out with whatever they had and were willing to help one another. This is the state that has the heart of a servant to be able to help those who are in need... Because of that unity and coming together, we are not going to compete with one another, we're not going to abuse one another, we're not going to criticize one another but come together in the unity of the spirit and model something in this state that the nation needs to deal with so that division and all of the competition and all that goes...

*Father I thank you for what you are saying to this state. And the Lord says there are going to come situations into this state, into your midst that would get you off focus of what I have spoken to you. The Lord said this is the time that I am going to give you the eyes of the Spirit so you cannot see to the right or cannot see to the left. But I am going to cause you to look straight ahead and on the path that I have given you. The Lord said don't be surprised in the days ahead when there are things that would rise up in this state to cause you to lose heart or cause you to begin to doubt the word of the Lord over you. For I say I am raising up an overcoming army in this state says the Lord. I say I am raising up the ones who know how to stay focused in the day of battle. I am raising up those who know how to look straight ahead to the destiny I have for them. So know says the Lord I am coming to you in this hour and I am giving you eyes of the Spirit. I am giving you eyes like that of a dove where you will stay focused and you will see the path I have put in front of you.

*Barbara anointed everyone with the Breakthrough Oil:

--Mulberry for understanding times and seasons (sons of Issachar); when David heard sound in the mulberry trees, he knew it was time to advance; triumphant reserve advancing in this season when they hear the sound

--Cinnamon for wealth—breaking poverty spirit that is coming off Louisiana

Saturday Afternoon, July 24

*We're going to go out of this place as this triumphant reserve that Chuck keeps prophesying about. We're going to go out of this place with a finishing anointing, and we're going to finish what God's given us to do in this state so that this state begins to look like and act like and shine like the Lord said that she is going to be...God's going to bring this state to national and international attention. I'm telling you the best years are ahead of you; they are not behind you.

*God is going to have some of you that are here and the call of God that is on your life—it's been there so long that you thought it was too late. You thought it was buried. You couldn't understand you stepped out to do what God called you to do and there were those that didn't like you, those that resisted you. But I believe God is coming in this hour to issue a fresh new call upon your life. I believe he's coming with that finishing anointing so that you can pick up the call of God and you can finish what he has called you to do.

* So Father, right now in the precious and powerful name of Jesus I release a finishing anointing. I release that finishing anointing over every person in this room today. I say God we will finish the assignment of the Lord. We will do what your prophetic word has told us to do. We're going to stay focused. We're going to press through. We're going to break through. We're going to see Louisiana come to the forefront in this nation and in the world. We say Louisiana will see the glory of God even as the waters cover the sea. Lord, we receive a finishing anointing today. May we finish the race and run the race well to your glory and honor, in Jesus name.
